

ROCK MARINE

CRAFTING SEA DREAMS

Rock 30

The core idea that drives Rock 30's design and functionality is centered on enhancing the driving experience. Engineered to excel in performance, handling, and comfort, Rock 30 guarantees that every ride on the water is exhilarating for the driver but also a fulfilling experience for all passengers on board.

A NEW ROCKING EXPERIENCE, BEGINS HERE.

But what is it that makes this vessel
a rocking experience?

THE PRECISE DESIGN

Rock 30 combines sharp and sporty lines, an aerodynamic console with an ergonomic helm station, a walk-around deck, stylish color schemes, and comfortable lounging areas in a way that very few boats of her class can compete with.

This fusion, born from an in-house pioneering process, focuses on enhancing the driver's experience while also ensuring optimal functionality and comfort for everyone on board.

The attention to detail in every aspect of the Rock 30's design and construction sets her apart offering a rewarding boating experience.

THE SUPERIOR PERFORMANCE

Fearless and proficient in all conditions and weather scenarios, Rock 30 symbolizes the perfect blend of high-quality performance, superior handling, and user-friendly design.

She guarantees a flawless ride and evokes an unparalleled sense of excitement during navigation.

THE REMARKABLE HULL

Rock 30's groundbreaking hull, specifically engineered for maximum stability and extreme maneuverability, features a ventilated triple step design that efficiently converts engine power into speed as well a 21° deadrise that guarantees an exceptionally smooth and incredibly steady ride.

THE PRACTICAL CONSOLE

The Rock 30's driving console includes a fully ergonomic helm station with an aerodynamic hard top and a sporty windshield that ensures an exhilarating and dry ride. A comfortable seat is placed in front of the console, with waterproof storage underneath and the option of a WC as a supplementary feature.

THE ERGONOMIC HELM STATION

A twin helm station arrangement featuring Shock Mitigation Ullman seats, high-quality multi-display screens, a premium steering wheel and an ergonomic two-level footrest enhance the pleasure of driving. The co-driver enjoys an equally comfortable experience, complete with a handrail for support when needed.

THE AMPLE LOUNGING AREAS

The delight of being aboard the Rock 30 isn't limited to the driver.

It extends to every guest who can seat themselves in the two separate relaxation areas, accommodating up to 10 persons.

A spacious, delta-shaped sunbed and a console seat in the forward area, coupled with a sunbed and a forward-facing couch in the aft, ensure the comfortable accommodation of all onboard.

TECHNICAL SPECIFICATIONS

Manufacturer	Rockmarine®
LH*	9,64m
Beam	2,68m
Hull	Deep V with 3 ventilated steps
Draft	75cm
Lightship weight	Approx. 2.100Kg
Fuel capacity	400L
Water capacity	65L
Passengers	8/10
CE category	B/C

*Boat length without outboards

PROPULSION OPTIONS

Dual outboards
450 -600 HP (total)
