

ROCK MARINE

CRAFTING SEA DREAMS

Rock 36

The core objective of the Rock 36's design is to ensure that everyone has a memorable time while spending a day on the water. Excelling in performance and, at the same time, featuring ample space for all the essentials needed for a day at sea, Rock 36 offers a rewarding experience whether in motion or at anchor.

A NEW ROCKING EXPERIENCE, BEGINS HERE.

But what is it that makes this vessel
a rocking experience?

THE THOROUGH DESIGN

Rock 36 radiates a captivating blend of dynamism and elegance, showcased through her sleek lines and curves. Equipped with an aerodynamically designed console paired with an ergonomic helm station, a spacious walk-around deck, two ample separate lounging areas, and a cozy hidden cabin space beneath the front sunbed, this boat truly stands out.

This blend of features, developed internally, is dedicated to enhancing the driver's journey by emphasizing functionality and ensuring optimal comfort for all passengers on board.

The consideration given to every detail in her design and construction is what sets Rock 36 apart, ensuring an enriching boating experience.

THE INNOVATIVE HULL

Rock 36's custom-engineered hull, designed specifically to meet this boat's profile, incorporates a ventilated triple step structure that effectively converts engine power into speed, along with a 23° deadrise ensuring a remarkably stable and smooth ride.

THE EXCELLENT PERFORMANCE

Rock 36 is crafted to deliver an exceptional experience, whether you're enjoying a leisurely cruise with friends or speeding over the waves. With her ability to provide precise control and comfort in any weather conditions, Rock 36 exemplifies the perfect balance of high performance and user convenience.

THE FUNCTIONAL CONSOLE

Rock 36 boasts a driving console paired with an aerodynamic hardtop and a sporty windshield that provide protection for the helm station against water and sunlight, specifically designed for exceptional long-distance cruising. Positioned in front of the console is a comfortable seat. Optionally, this seating area can accommodate headroom underneath, complete with a sink and basin.

THE USER-FRIENDLY HELM STATION

The dual helm station setup includes comfortable shock-absorbing bucket seats with premium marine upholstery, high-quality multi-display screens, a premium steering wheel, and a two-level footrest for optimal comfort and an ideal driving experience.

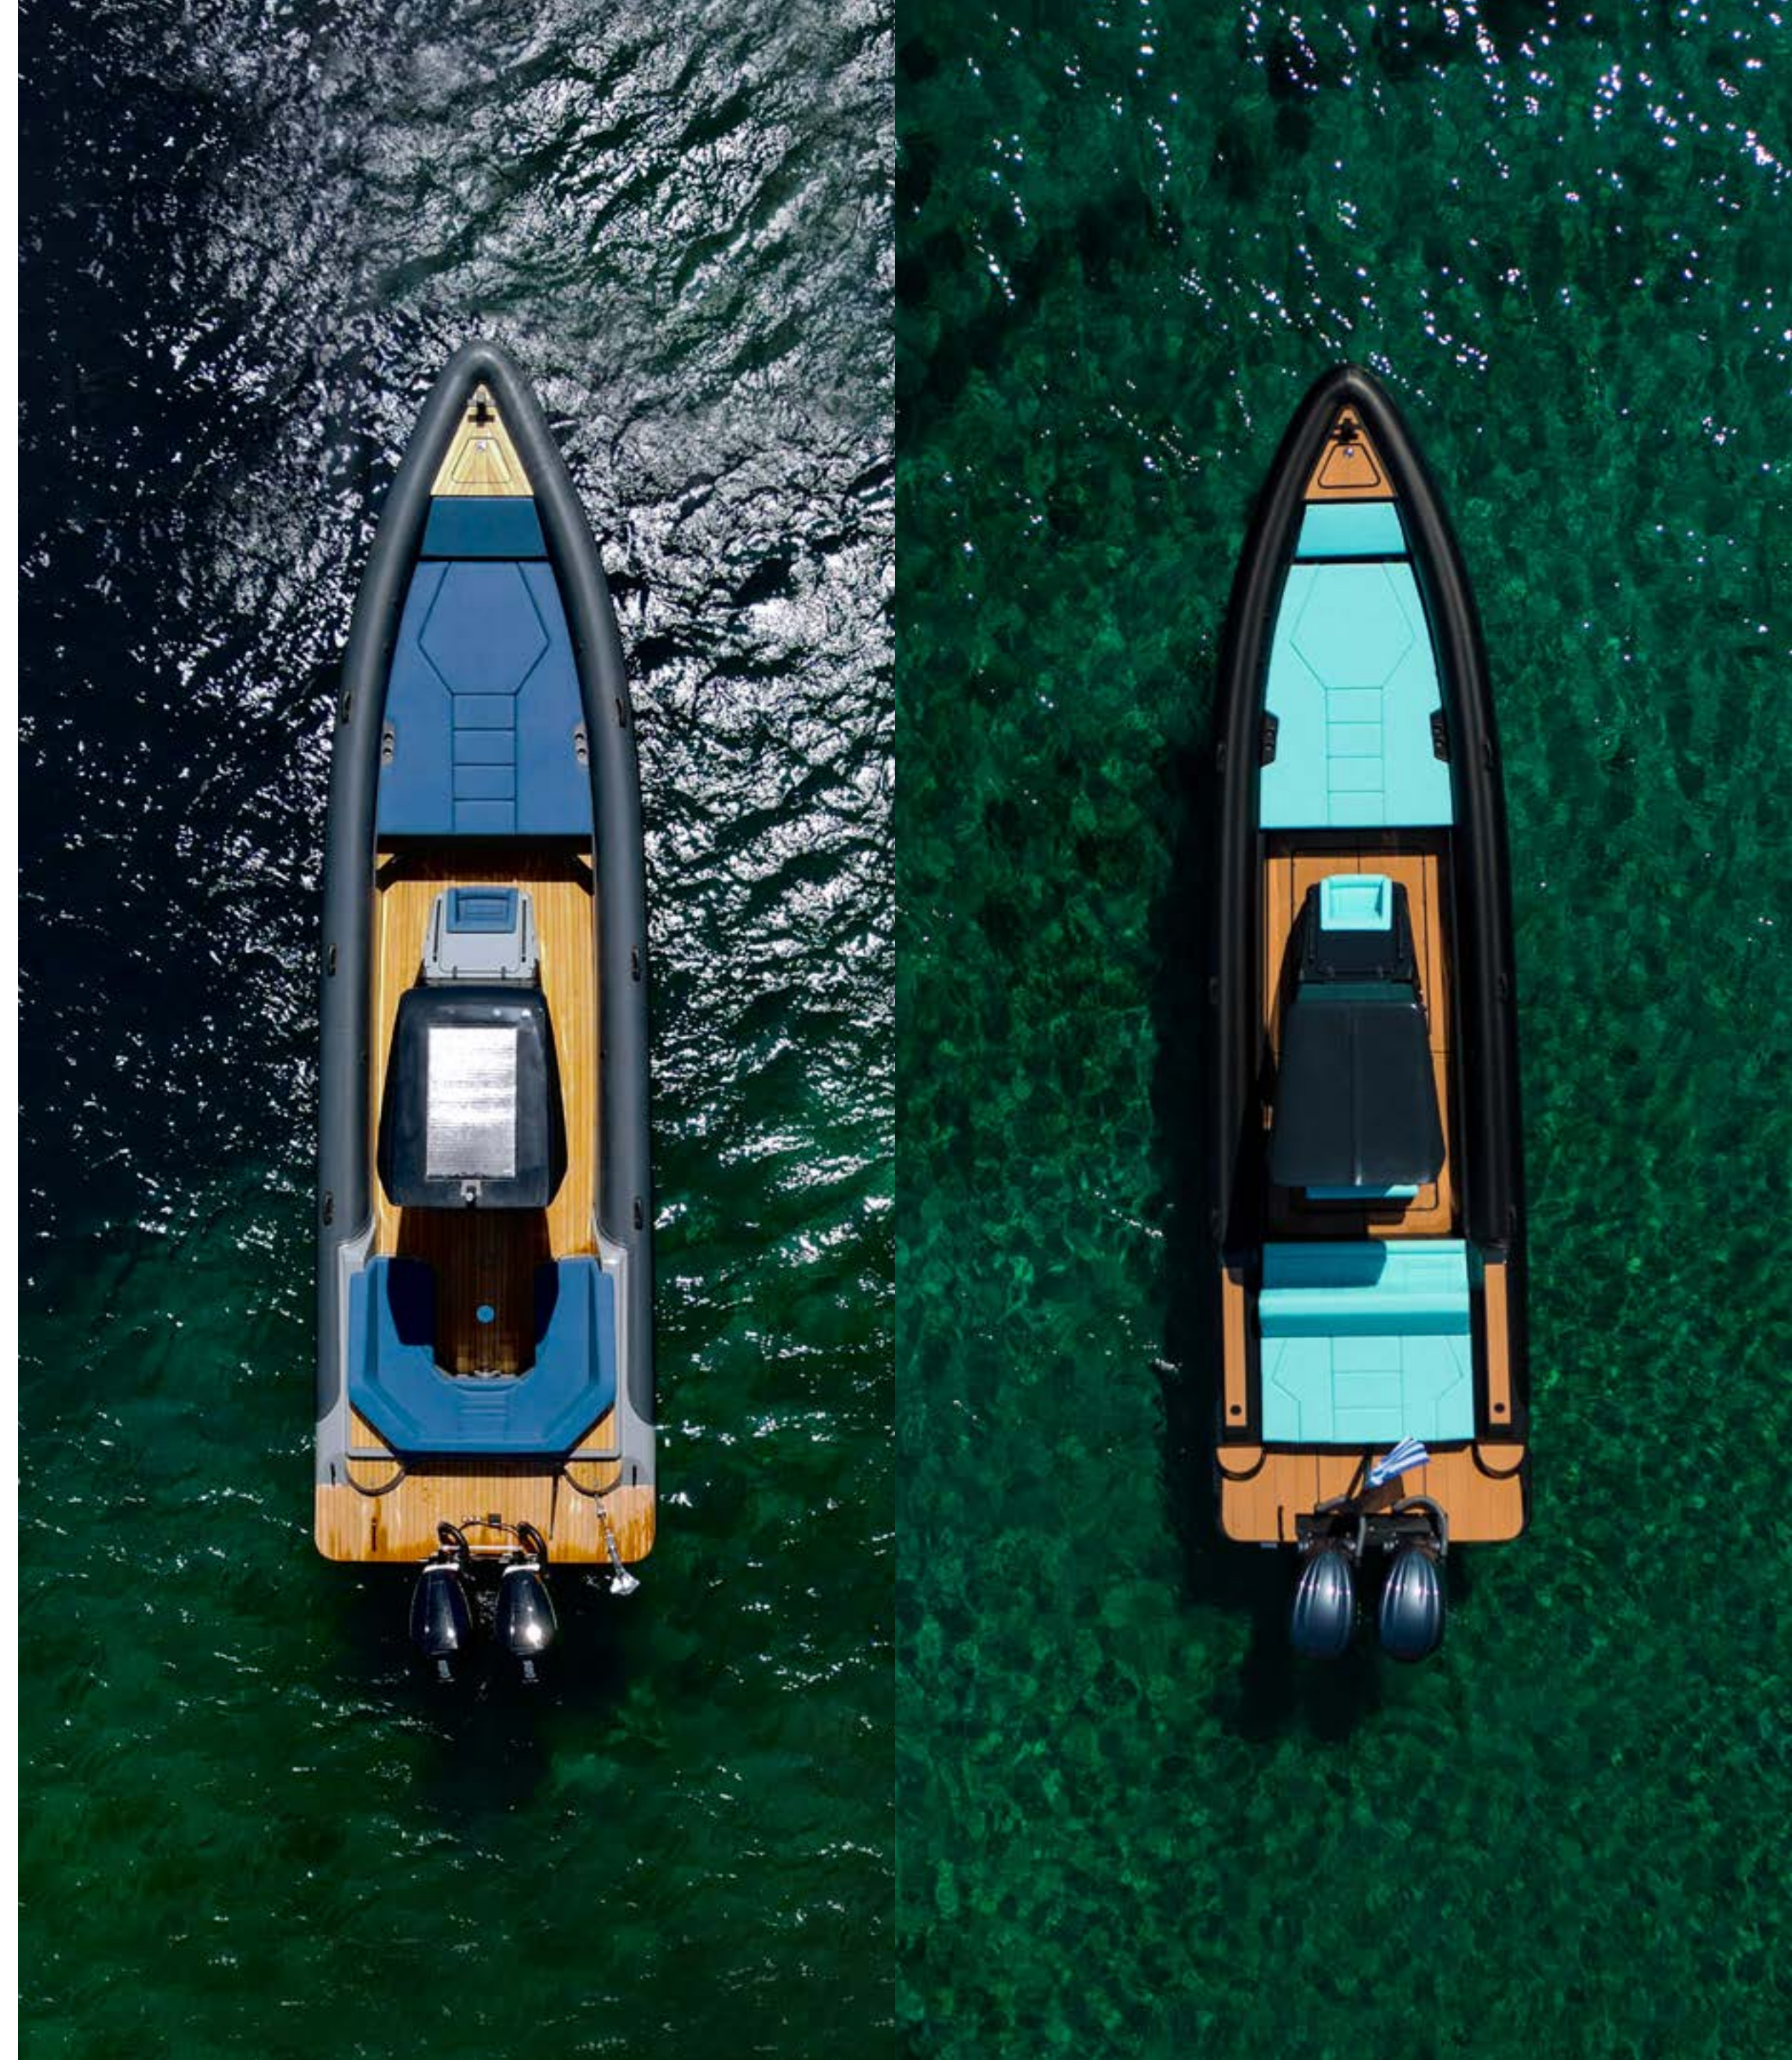

The co-driver enjoys an equally comfortable experience, complete with a handrail for support when needed.

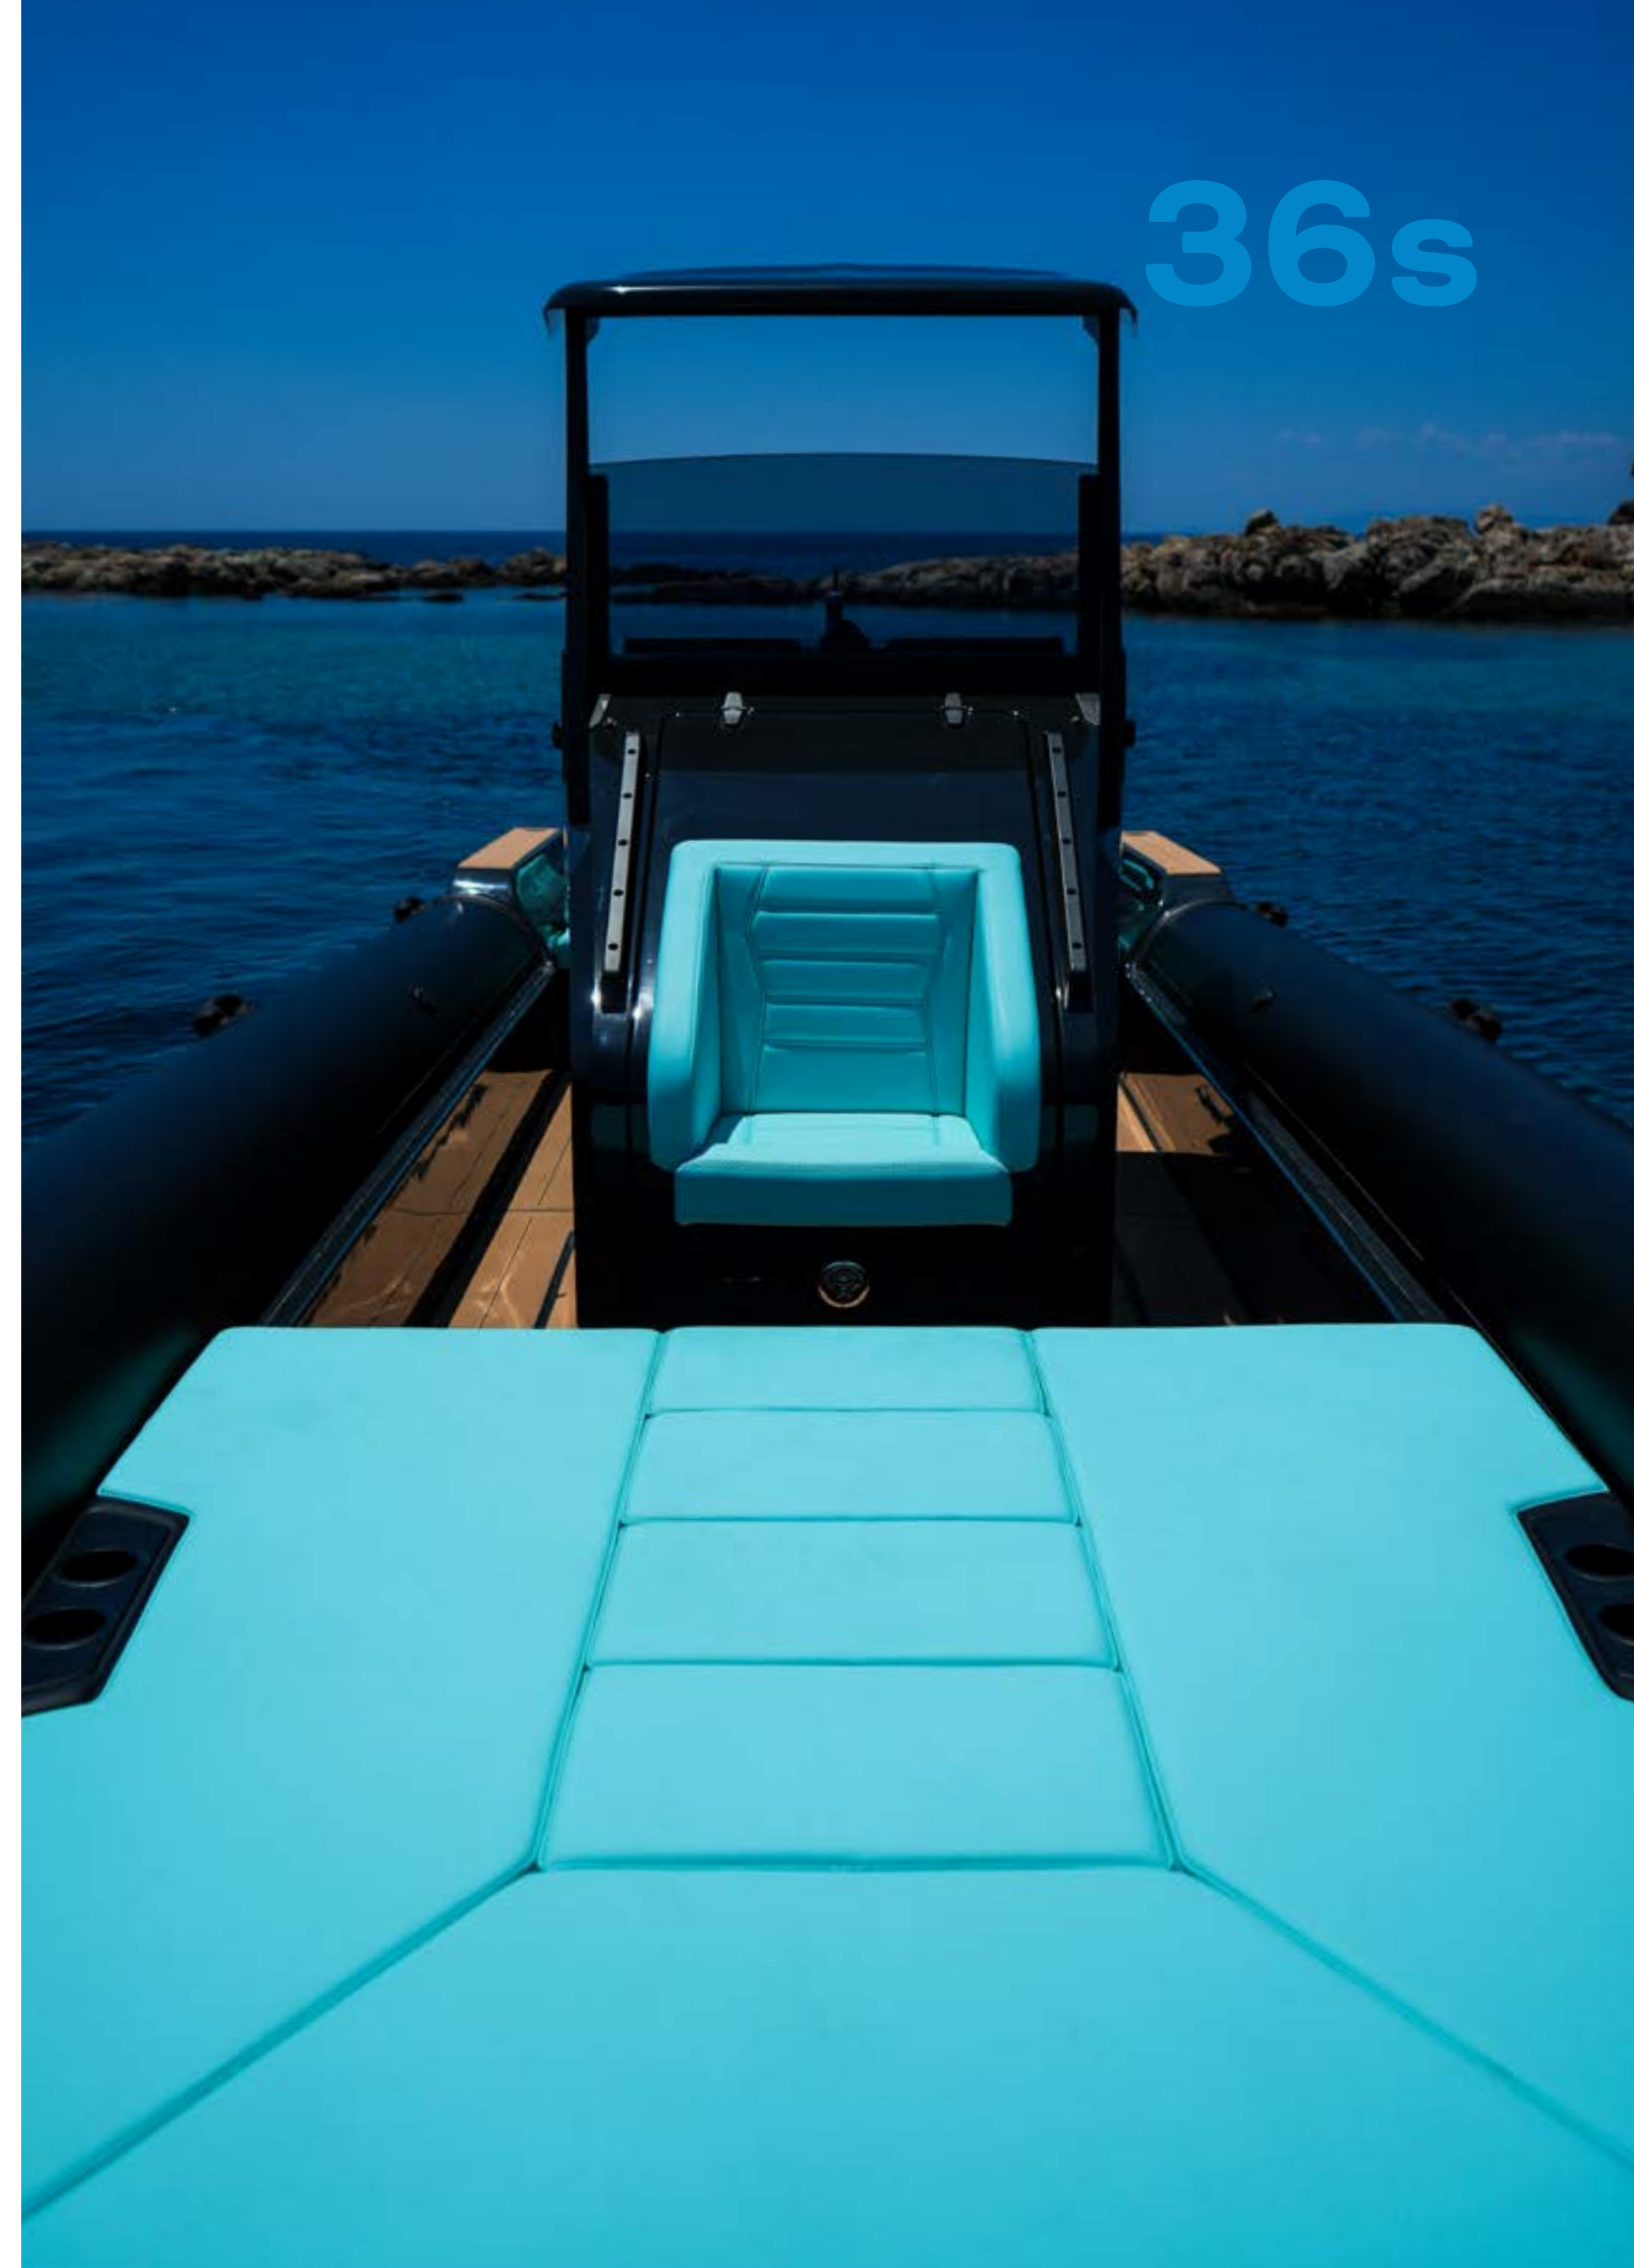

THE INVITING LOUNGING AREAS

Rock 36 offers a delightful experience for all guests, with two separate relaxation areas capable of accommodating up to 10 people. There is a large, delta-shaped sunbed and a console couch in the forward area, while at the aft there are two available deck layouts: a forward-facing, oversized U-shaped sofa with a fully equipped wet bar, including a fridge and sink, for the U edition, or a big sunbed paired with a back-to-back console couch, for the S edition.

36u

CABIN SPACE

A comfortable bed for two lies beneath the delta bow sunbed.

The area can be easily converted into waterproof storage space.

In the U edition, this space is getting wider to offer not just a larger bed but also additional storage along the sides.

TECHNICAL SPECIFICATIONS

PROPULSION OPTIONS

Manufacturer	Rockmarine®
L _H *	10,44m
Beam	2,77 (Rock 36S)
	2,99 (Rock 36U)
