

ROCK MARINE

CRAFTING SEA DREAMS

ROCK 40

The core intent of the Rock 40's design is to provide an exceptional experience on the water, emphasizing comfort and spaciousness. This versatile day boat excels in performance while offering ample space for relaxation and social interaction, ensuring that each outing is enjoyable, whether you are cruising or anchored.

A NEW ROCKING EXPERIENCE, BEGINS HERE.

But what is it that makes this vessel
a rocking experience?

THE THOROUGH DESIGN

Rock 40 captivates with her vibrant blend of dynamism and refinement, characterized by sleek design and elegant lines.

The boat is meticulously crafted with comfort and ergonomics in mind. Featuring an aerodynamically shaped console and an ergonomic helm station, Rock 40 also boasts a super-wide walk-around deck that accesses expansive lounging areas at the aft and stern, providing ample space for relaxation.

Additionally, a fully equipped cabin beneath the console enhances overall comfort, making Rock 40 a standout choice for elevating the day boating experience to new heights.

THE CUTTING-EDGE HULL

Rock 40's hull, masterfully designed by renowned hull designer Ocke Manerfelt to align with the boat's profile and developed in-house, features a ventilated triple-step structure that efficiently translates engine power into speed, complemented by a 23° deadrise that ensures an exceptionally smooth ride.

THE EXCEPTIONAL PERFORMANCE

Rock 40 is engineered to provide a premier performance experience, whether you're enjoying a leisurely day on the water with friends or speeding across the waves. Her impressive steering precision and comfort in various weather conditions make her an ideal representation of exceptional performance combined with user-friendliness.

THE PRACTICAL CONSOLE

Rock 40 is outfitted with a driving console that features an aerodynamic hardtop and a stylish windshield, offering protection for the helm station against water and sunlight, making the boat ideal for long-distance cruising. Positioned in front of the console is a super comfortable seat. Underneath the console, there is cabin space that is easily accessed and flooded with daylight.

THE USER-CENTRIC HELM STATION

The triple helm station setup features cushioned, shock-absorbing bucket seats covered in premium marine upholstery, state-of-the-art multi-display screens, an elegant steering wheel, and a dual-tier footrest, all designed to maximize comfort and provide an outstanding driving experience for everyone at the helm.

THE GENEROUS LOUNGING ZONES

On the expansive walk-around deck, two inviting social areas create the perfect atmosphere for relaxation. At the bow, a large, delta-shaped sunbed and a cozy bow seat provide ideal spots for soaking up the sun and enjoying the views. Toward the stern, additional space for relaxation is provided by two L-shaped sofas and a three-seat sofa, complemented by adjustable tables for convenience.

THE DIVERSE AMENITIES

With safety in mind, Rock 40 boasts an ultra-deep, fully walkable deck elegantly adorned with teak surfaces on the deck, bulkheads, and tables. LED lights throughout, complemented by downlights integrated into the hardtop, along with a freshwater shower and a convenient swim ladder, further enhance onboard enjoyment. A fully equipped wet bar, featuring dual refrigerators, an espresso machine and a sink, along with the spacious, weather-tight storage area for equipment located under the benches, brings all the comforts of home within arm's reach.

THE SPACIOUS CABIN

Accessible through a thoughtfully designed pantographic side door, the cabin interior provides generous space, including a tastefully appointed bathroom. The layout harmonizes functionality with comfort, establishing a serene ambiance while incorporating a sense of luxury.

TECHNICAL SPECIFICATIONS

Manufacturer	Rockmarine®
LH	12,00m
Beam	3,90m
Hull	Deep V with 3 ventilated steps
Draft	110cm
Lightship weight	Approx. 4.900Kg
Fuel capacity	1000L
Water capacity	250L
Passengers	12/18
CE category	B/C

* Boat length without outboards
